MISSION

To encourage students to continuously strive for excellence in every field. To value and actively use their knowledge, resources and human capabilities and to be self-aware. To be successful in the service of their followers. To understand and appreciate the ability to accept individual and continuous transformation, to identify and initiate all needed change in the country, and study to make the students be future leaders, and future professionals, who are well equipped. To create future and progress in the present.

VISION

Shaping leaders with integrity and constantly progress and promote the higher values and ethics in education and will deliver excellence at all levels in English medium and humanity change.
